The Republic of Iraq ... Hashemite Kingdom of Jordan
Announcement of an international tender invitation
issued by the Iraqi Jordanian Company for Industry

Tender No . (1/2023)

Invitation to employ a developer for the joint Iraqi-Jordanian economic city to prepare studies, designs and engineering plans and drawings, develop, finance, implement, manage, invest, promote, market and operate the economic city, sustain and maintain all its elements and facilities.

The Iraqi Jordanian Company for Industry invites all specialized and qualified international companies in the fields of developing economic cities and/or industrial cities and/or development zones and/or free zones to participate in the above tender according to the following:

First: Conditions for participating in the tender

Companies (Iraq) and/or Jordanian and/or any other nationality) with (affiliations/joint venture companies) are allowed to apply to participate in this tender, provided that the applicant for this tender fulfills the following conditions and possess the following documents:

1. A document certifying that it is a legal entity duly registered/established under the laws of the bidders' country and has all required legal authority and power to enter and participate in such a tender.
2. A document proving that he has the financial ability to develop, implement, manage, operate, promote, market, maintain and sustain the economic city.
3. A document proving that he possesses the technical ability to develop, implement, manage, operate, promote, market, maintain and sustain the economic city.
4. It has obtained and issued official documents for example, but not limited to a commercial register that includes a description of the objectives, the implementation and development of economic cities, industrial cities or development zones, and a permit / license for similar business procedures.
5. All these supporting documents shall be presented when applying for a copy of the tender documents.

Second: - Basic information and data :

1. Employer: The Iraqi-Jordanian Company for Industry is a private limited liability (Jatah Arab Company) established in 1981 equalizing between the government of the Republic of Iraq and the government of the Hashemite Kingdom of Jordan. Its headquarters is in the capital, Baghdad. The Company's objectives are to establish, finance and acquire industrial projects in the two countries and supervising managing or leasing other industrial projects.

2. The joint Iraqi-Jordanian economic city: It has a land area of (22) million square meters and is located at two parts of land, and follows:

- A. The first land part is situated on the territory of the Republic of Iraq and on the parcel of land numbered (3078/ Al-Rukhais).
- B. The second land part is on the territory of the Hashemite Kingdom of Jordan and on the two parts No. (17 & 20) of the original land parcel number (6) of Zone No. (1) Al-Karama Customs center from the lands of the village of Al-Karama Customs site.

3. Tribal border crossing:

4. Components and phases of implementation and development of the city:

- A. The city is being implemented and developed in three phases (the first phase with an area of (10) million square meters, the second phase with an area of (10) million square meters and the third phase with an area of (6) million square meters).
- B. The city includes the following proposed components:

- The industrial component aims at creating developed land areas for investment in various industrial projects.
- The commercial component: aims at creating developed land areas for investment in various trade and commercial projects.
- Logistics component: It aims to provide developed land areas for investment in various storage projects.
- The financial, business, education and health components aims at creating developed land areas for investment in projects providing various financial and supportive business services, educational and health services.
- The residential and commercial component: It aims to provide developed land areas for investment in various residential and commercial service projects.
- The transportation component: it aims at creating developed land areas for airport and railway transportation projects
- The administrative and services component: It aims to provide spaces for the administration buildings necessary for the city's various administrative and service needs.
- Component of services and infrastructure: green areas, streets and sidewalks.

Third: Description of the work required from the developer who will win the development tender :

Preparing studies, designs and engineering plans and drawings, developing, financing, implementing, managing, investing, promoting, operating, sustaining, and maintaining the proposed economic city and all its facilities, according to what is required in the tender which include but not limited to the following:

1. The first document: the article of incorporation of the King Fahd Jordanian Economic City.
